## Public Hearing Summary

### Summary of WSIP Draft PEIR Notification and Public Hearings

The San Francisco Planning Department published the Draft Program Environmental Impact Report (PEIR) on the San Francisco Public Utilities Commission's Water System Improvement Program (WSIP) on June 29, 2007. The public comment period to review the Draft PEIR began on Friday, June 29, 2007 with submittal of the Draft PEIR to the State Clearinghouse and the issuance of the Notice of Availability (NOA). The Draft PEIR and NOA included notification of the public comment period and public hearings, and announced that public meetings were to be held on September 5, 6, 18, 19, and 20 and written comments were to be accepted to be through October 1, 2007. After the public hearing on September 20, the San Francisco Planning Department scheduled an additional public hearing for October 11 and extended the official public comment period to October 15, 2007.

### Notification of Release of Draft PEIR

The San Francisco Planning Department notified agencies and the public in writing regarding about the availability of the Draft PEIR and the public hearing dates and locations. The notification provided details on the comment process. The following methods of notification were used:

**Mailing List.** A mailing list was compiled, including over 1600 contacts for direct mail and 300 for e-mail, representing affected federal, state, regional, and local agencies; federal, state, regional, and local elected officials; regional and local interest groups; member agencies of the Bay Area Water Supply and Conservation Agency (BAWSCA); other potentially affected water and irrigation districts; SFPUC Community Advisory Committee members; information repositories; media contacts; and individuals who attended the scoping and other past meetings on the WSIP PEIR.

**Draft PEIR and NOA.** On June 29th, printed copies of the Draft PEIR were distributed to 70 state and local agencies, and 15 hardcopies of the Draft PEIR Summary, 15 CDs containing the full Draft PEIR, and one hardcopy of the Notice of Completion were delivered to the State Clearinghouse. Copies of the Draft PEIR or CDs of the draft document were also sent to 365 additional organizations and individuals. In addition, a Notice of Availability (NOA) of the draft document was distributed via first-class mail to the entire mailing list.

**Meeting Notification.** Notice of the initial five public hearings was provided to individuals and the general public through the following means:

***Direct mail of the NOA and notice of public hearings***

- On 6/29/07 the NOA, including notice of public hearings, was sent by first class mail to a contact list of approximately 1,627 entities (individuals or organizations).
- On 8/27/07 a post card follow up notice of the public hearings and comment period was sent by first class mail to an expanded contact list of approximately 1,751 entities.

***E-mail notice of NOA***

- On 6/29-30/07 an electronic NOA and notice of public hearings was emailed to a list of 818 e-mails.
- On 8/24/07 a follow-up email notice of the public hearings and public comment period was sent to an expanded e-mail list of 1,124.
- On 10/8-9/07 an additional follow-up email notice of the public hearings and public comment period was sent to the e-mail list of 1,124 noticing the extended comment period and additional public hearing.

## **Legal Notices**

Notices of the public hearings and information on how to obtain a copy of the Draft PEIR and provide public comment were placed and run in the legal classified section of the following newspapers on the following dates:

- Modesto Bee, 6/29/07 and 7/13/07
- Sonoma Union Democrat, 7/2/07
- Stockton Record, 7/3/07
- San Francisco Chronicle, 6/29/07
- San Mateo County Times 6/29/07

## **Display Ads**

Display ads with information about the public meetings and information on how to obtain a copy of the Draft PEIR and provide public comment were placed and run in the following newspapers on the following dates:

- Modesto Bee, 8/27/07
- Sonoma Union Democrat, 8/27/07
- Stockton Record, 9/10/07

**PROGRAM DESCRIPTION**

The San Francisco Public Utilities Commission (SFPUC) proposes to adopt and implement the Water System Improvement Program (WSIP) to increase the reliability of the regional water system, which provides drinking water to 2.4 million people in San Francisco, San Mateo, Santa Clara, Alameda, and Tuolumne Counties. WSIP implementation would involve using additional water supplies to serve customer needs through 2030 as well as constructing repairs and improvements to many facilities within the existing system located in Tuolumne, Stanislaus, San Joaquin, Alameda, Santa Clara, San Mateo, and San Francisco Counties.

**SUMMARY OF IMPACT ANALYSIS**

The Draft PEIR evaluates the environmental effects of the proposed changes in water supply, including growth-inducing impacts, as well as the general environmental effects of implementing 22 facility projects. The analysis in the Draft PEIR finds that the WSIP would support planned growth in the existing SFPUC service area and indirect effects of growth are significant and unavoidable. All other impacts resulting from water supply changes could be mitigated to a less-than-significant level, with the exception of an unavoidable impact on streamflow for about two miles in Alameda Creek and a potentially significant and unavoidable fisheries impact in Crystal Springs Reservoir. Other potentially significant but mitigable impacts as a result of water supply changes include: impacts on water quality, fishery resources, terrestrial biological resources, recreation and visual resources in the watersheds of either the Tuolumne River, Alameda Creek, San Mateo Creek, or Pilarcitos Creek; and impacts on groundwater and related resources in the Westside Groundwater Basin.

The environmental analysis also determined that most of the impacts associated with implementing facility projects could be mitigated to a less-than-significant level, although some impacts in the areas of land use, visual resources, cultural resources, biological resources, noise, vibration, air quality, and traffic were conservatively identified as potentially significant and unavoidable at the programmatic level. These impact determinations may be revised during subsequent environmental review of individual facility improvement projects. The Draft PEIR identifies potentially significant, but mitigable impacts from construction and operation of 22 facility projects in the areas of land use, visual quality, geology, hydrology/water quality, biological resources, cultural resources, traffic, air quality, noise, vibration, public services, utilities, recreational resources, agricultural resources, hazards, and energy.

The Draft PEIR also evaluates the environmental effects of variations of and alternatives to the WSIP.

**PUBLIC HEARINGS**

The San Francisco Planning Department will hold five public hearings on this Draft PEIR at the locations listed below. The same information and opportunity to comment will be provided at each meeting. See the maps on the reverse side of this notice for directions to meeting locations.

# Public Hearings in September on The Environmental Review of the SFPUC's Water System Improvement Program

## PROGRAM DESCRIPTION

The San Francisco Public Utilities Commission (SFPUC) proposes to adopt and implement the Water System Improvement Program (WSIP) to increase the reliability of the regional water system, which provides drinking water to 2.4 million people in San Francisco, San Mateo, Santa Clara, Alameda, and Tuolumne Counties. WSIP implementation would involve using additional water supplies to serve customer needs through 2030, as well as constructing repairs and seismic improvements to many facilities within the existing system located in Tuolumne, Stanislaus, San Joaquin, Alameda, Santa Clara, San Mateo, and San Francisco Counties.

A Draft Program Environmental Impact Report (Draft PEIR) has been prepared by the City and County of San Francisco Planning Department in connection with this program. Beginning June 29, 2007, the Draft PEIR for the SFPUC's Water System Improvement Program is available for review and public comments (see reverse side for more details on how to view and comment on the Draft PEIR). Look for a summary presentation of the Draft PEIR's contents online in early September at [www.sfgov.org/site/planning/mea](http://www.sfgov.org/site/planning/mea).

NOTICE OF HEARING ON DRAFT PROGRAM ENVIRONMENTAL IMPACT REPORT FOR THE FOLLOWING

2005.0159E- WATER SYSTEM IMPROVEMENT PROGRAM (WSIP). The San Francisco Public Utilities Commission (SFPUC) proposes to adopt and implement the WSIP to increase the reliability of the regional water system, which provides drinking water to 2.4 million people in San Francisco, San Mateo, Santa Clara, Alameda, and Tuolumne Counties. WSIP implementation would involve using additional water supplies to serve customer needs through 2030 as well as construction of repairs and/or improvements to many facilities within the existing system located in Tuolumne, Stanislaus, San Joaquin, Alameda, Santa Clara, San Mateo, and San Francisco Counties.

Notice is hereby given to the general public as follows:

1) A Draft Program Environmental Impact Report (PEIR) on the WSIP has been prepared by the San Francisco Planning Department to identify potentially significant environmental effects of the proposed program, ways to minimize those effects, and feasible alternatives. The report can be viewed online at www.sfgov.org/site/planning/mea (or by linking to this site from http://PEIR.sfwater.org). A printed copy of the report is available for public review and comment at the Planning Department offices at 1660 Mission Street, 1st Floor, Planning Information Counter. A printed copy of the report and associated reference materials are available for review by appointment at the San Francisco Public Utilities Commission by calling 1-866-231-1337 or e-mailing PEIRappointments@sfgov.org. They also can be viewed at:

- Alameda County/City of Fremont Library: 2400 Stevenson Boulevard, Fremont
- San Francisco Main Library: 100 Larkin Street San Francisco
- Stockton-San Joaquin County Public Library: 605 N. El Dorado St, Stockton
- San Mateo County/Belmont Library: 25 Tower Road, San Mateo
- San Jose-Dr. Martin Luther King, Jr. Library: 150 East San Fernando, San Jose
- Tuolumne County Library: 480 Greenley Road, Sonora

2) The Draft PEIR evaluates the environmental effects of the proposed changes in water supply, including growth-inducing impacts, as well as the general environmental effects of implementing 22 facility projects. The analysis in the Draft PEIR finds that the WSIP would support planned growth in the existing SFPUC service area and indirect effects of growth are significant and unavoidable. All other impacts resulting from water supply changes could be mitigated to a less-than-significant level, with the exception of an unavoidable impact on streamflow for about two miles in Alameda Creek and a potentially significant and unavoidable fisheries impact in Crystal Springs Reservoir. The environmental analysis also determined that most of the impacts associated with implementing facility projects could be mitigated to a less-than-significant level, although some impacts in the areas of land use, visual resources, cultural resources, biological resources, noise, vibration, air quality, and traffic were conservatively identified as potentially significant and unavoidable at the programmatic level. These impact determinations may be revised during subsequent environmental review of individual facility improvement projects.

3) Public hearings on this Draft PEIR have been scheduled as follows:

- Sept. 5 6:30 p.m.: Sonora Opera House, 250 S. Washington Street, Sonora
- Sept. 6 6:30 p.m.: Thomas Downey High School Cafeteria, 1000 Coffee Rd, Modesto
- Sept. 18 6:30 p.m.: Fremont Main Library, Fukaya Room, 2400 Stevenson Blvd, Fremont
- Sept. 19 6:30 p.m.: Avenidas Senior Center, 450 Bryant, Palo Alto
- Sept. 20 1:30 p.m. or later: San Francisco Planning Commission, City Hall, Rm 400, 1 Dr. Carlton B. Goodlett Place, San Francisco (Call 558-6422 the week of the hearing for a recorded message giving a more specific time).

4) Public comments on the Draft PEIR will be accepted by the San Francisco Planning Department from Friday, June 29 through 5:00 p.m. on Monday, October 1, 2007. You may submit comments to the Planning Department using any of the following means: provide oral or written comments at a public hearing; mail comments to the San Francisco Planning Department, attention: Paul Maltzer, Environmental Review Officer, WSIP PEIR, 1650 Mission Street, Suite 400, San Francisco, CA 94103, or e-mail comments to wsip.peir.comments@gmail.com. The San Francisco Planning Department will prepare written responses to comments received during the public review period in a Comments and Responses document. If you have any questions about the environmental review of the WSIP, please leave a message for the Planning Department at 1-866-231-1337.
