Mixed-Use Streets

The Mission District’s mixed-use streets are concentrated in the unique Northeast portion of the neighborhood, where light industrial, housing and retail mix, often on the same block. Designs for wide mixed-use streets (including portions of Alabama, Florida, Hampshire and York Streets) would add large planters to detain excess stormwater runoff, located around existing perpendicular parking areas.

POLICY B3
MAKE THE MISSION DISTRICT A MODEL FOR SUSTAINABLE STORMWATER MANAGEMENT

PROJECT SELECTION CRITERIA:
• Sufficient right-of-way width for perpendicular parking.
• Sufficient right-of-way width for large stormwater management element.

PROJECT LIST:
• ALABAMA STREET (TREAT TO 19TH STREETS)
• FLORIDA STREET (TREAT TO 20TH STREETS)
• HAMPSHIRE STREET (17TH TO 20TH STREETS)
• YORK STREET (MARIPOSA TO 20TH STREETS)
